

# 425HTS

The 425 HTS joins the cruiser lineup of the Four Generation Galeon models and further improves on the already amazing performance of the sporty 485 series it was based on. The hardtop offers a distinguishable, sporty exterior matched by its quality interior. The sleek lines and exceptional profile make it easy to forget the yacht's true nature where functionality and comfort will always take precedence. Features like wide side decks for easy bow access in all weather conditions, a garage for an inflatable tender or gangway option for safe marina access are sure to impress future owners.

The 425 HTS follows the express cruiser concept of the Galeon 485 where the main deck is a dry area protected from the noise and elements by a glass door and window combo. This also allows to fit in heating and air conditioning, a welcome feature in most climates.

Outside, the glass or carbon option power sunroof works well with the large side windows on both sides that lower into the deck while the patio doors can open upwards allowing for better ventilation – ingenious!

Galeon 425 HTS has functional interior and well-designed deck space. Below deck a saloon, two bedrooms and two bathrooms await the guests. The owner's suite is located midship and occupies the whole width of the yacht allowing for an incredible amount of volume and storage space. Several bespoke interior designs are available with a selection of choice engines to ensure performance to match. Electric-powered sunroof and side windows, retractable glass cabinet in the cockpit - these are only a few of the new yacht's superb features.

Dynamic and aggressive shape of the yacht suggests sport performance, which the 425 HTS delivers. Wide half-decks offer safe passage to the bow, and hydraulic-powered rear garage is large enough to accommodate a tender.

# 425 HTS

The new model to the Galeon cruiser line-up offers high standard features and sport like performance in any conditions.
