

INTRODUCING THE BOLD NEW  
**220 DAUNTLESS**

BOSTON  
**WHALER**

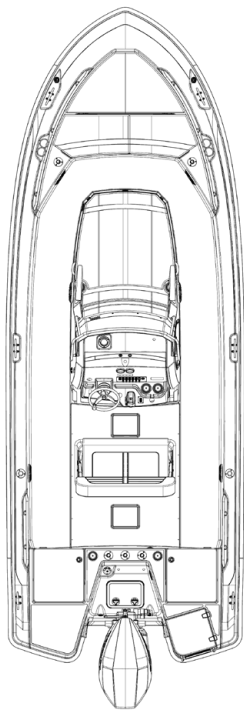

## BOLD PAST. FEARLESS FUTURE.

For decades, the Boston Whaler Dauntless series has led the industry in confident performance and multitasking capabilities. The all-new **220 Dauntless** marks the next chapter in a history of leading the way. Smooth-riding performance and a spacious center console layout combine with amenities for fishing, watersports, leisurely cruising and running inshore as well as offshore. For boaters seeking a higher-quality bay boat experience, there's only one way to be: Dauntless.

LAUNCH VIDEO.

“*The Dauntless is like a hybrid, but better, because there are zero trade-offs. So not only does it ‘do it all,’ it actually does it all very well.*”

— **Kenneth Beauregard,**  
**Regional Business Manager**

## NOT YOUR AVERAGE BAY BOAT.

What makes the 220 Dauntless stand out from the pack? For starters . . .

- **BETTER THAN BAY:** Performing well above and beyond the typical bay boat, the new Dauntless can go farther offshore and handle rough inlets with confidence, thanks to an improved deadrise and shearline that sit the boat deeper in the water.
- **OUT OF THIS WORLD, NOT OUT OF REACH:** The 220 Dauntless delivers incredible quality and value that you can see and feel, making it worth every penny. Its ability to support multiple activities comes with no trade-offs in terms of comfort or craftsmanship.
- **FITS THE MISSION:** As an ideal platform for fishing, watersports, cruising and everything in between, the 220 Dauntless brings the family together in one sleek platform that lets everyone enjoy their favorite boating activities.
- **UNINHIBITED CONNECTION:** With its flat stern deck, large swim platforms, angled swim ladder and more, the new Dauntless fosters a deeper connection with the water for boaters who want to be in it as well as on it.
- **SPACIOUS AND COMFORTABLE:** With nicer forward seating than a bow rider, and the free-flowing onboard movement of a center console layout, the 220 Dauntless is a brilliant choice for boating on inland lakes and along the coast.

## FEATURES & OPTIONS FOR ALL-DAY FUN

**(A) SEATING GALORE** - The 220 Dauntless offers comfortable seating throughout, including a large two-person lounge in front of the console with drink holders and armrests; and port and starboard stern seats with folding backrests.

**(B) EASY TO TOW** - Thanks to its nimble size, the Dauntless is a great choice for boaters planning to store the boat at their home or otherwise off the water. Choose the optional aluminum trailer for a turnkey towing setup.

**(C) GREAT FISHABILITY** - Whether you're new to fishing or an experienced pro, count on the 220 Dauntless to empower catch after catch. Fishing features include ample rod holders, a stern casting deck, an available reversible pilot seat with 32-gallon livewell, and an optional MotorGuide® trolling motor.

**(D) MAJOR STORAGE** - Store everything you need for a full day on the water and access your gear easily. The lockable storage garage beneath the forward lounge seat is just one example: It has space for multiple fishing rods, buckets, life jackets, ropes and more.

**(E) NAVIGATION STATION** - The intuitive helm station makes command of the boat effortless, whether you're taking the kids for a spin on a tube or easing into a narrow slip. Optional Raymarine® navigation packages put the latest technology at your fingertips.

**(F) SUPERIOR RIDE QUALITY** - Whaler's exclusive Unibond™ construction method and a precision-engineered hull with 18 degrees of deadrise ensure a soft, smooth, stable ride. State-of-the-art Mercury® propulsion delivers ultra-reliable, efficient performance.
