

700 SKYDECK

The 700 SKYDECK offers enhanced functionality and an uncompromising, sleek design. Notice the saloon doors, one of yacht's key features, swiftly sliding into the deck to create a vast common space with the stern area – perfect for leisure and relaxation.

Flawless finish, high-end equipment, and exhilarating performance speak for themselves. The roof-mounted steering, complete with two sun beds, is a

marvelous addition to an already stunning model and allows extra visibility in tight marinas and canals. Sunshine bathes the main deck through the large glass panels and windows, which can be quickly covered by the automatic blinds to offer privacy and respite for the passengers. The proud winner of the World Yacht Trophies in the “best design” and “most innovative” categories for yachts under 24 meters, the 700 offers interior lighting that will leave you dazzled: ambient and discrete, eye-catching – but not distracting.

The automatic garage and stern platform systems allow for easy, one-person operation of rafts, tenders and other personal watercrafts.

The 700 SKYDECK comes equipped with powerful engines and top-of-the-line electronic systems, from navigation to custom on-board entertainment. Precise finish, handcrafted materials, and comfortable leisure areas create a welcoming and luxurious atmosphere on board.

Skydeck line

The SKYDECK feature adds functionality without compromising the sporty design of the Galeon 700. With a side profile of a hardtop it offers top deck steering and extra leisure areas.
