280 OUTRAGE

BOLD PERFORMANCE, BIG COMFORT

Boston Whaler's 280 Outrage is a serious offshore performer that also delivers serious onboard comfort, with an array of smart features and options that make it as well suited to entertaining friends and family as it is to epic fishing trips. And thanks to Whaler's unique variable-deadrise hull design, the 280 Outrage delivers the softest, safest, driest ride out there.

See for yourself how Boston Whaler's foundation of unsinkable performance gives you the confidence to satisfy any boating dream in style. Take the 280 Outrage on a hardcore fishing run or take the kids or grandkids out for a fun-filled cruise: with Whaler, you never have to compromise.

280 OUTRAGE

SERIOUS CAPABILITY...

Count on 360 degrees of walkaround to provide all the fish-fighting space you need—but that's only the beginning. The 280 Outrage is a serious performer, with cutting-edge propulsion and electronics, ample rod and gear storage, a well-equipped leaning post/bait-prep station and so much more. Available options include Mercury's incredible Joystick Piloting and Skyhook/autopilot functionality, making the experience of captaining as satisfying as the experience of reeling in a record-breaking catch.

1) **Helm Station** | Cutting-edge technology ensures confident command. The 280 Outrage features a deluxe SmartCraft helm display, with an array of the latest Raymarine® electronics & navigation packages available—including GPS, CHIRP sonar, fishfinders and chartplotters.

2) **Aft Cockpit** | Fighting the big fish requires plenty of room to maneuver. That's why the comfortable aft bench folds cleanly out of the way, dramatically increasing cockpit space. Abundant transom- and gunnel-mounted rod holders mean your arsenal is always close at hand.

3) **Leaning Post** | The 280's Deluxe Leaning Post features a sink, a bait-prep surface, a pressurized 30-gallon livewell with clear lid, three tackle storage drawers and more. Choose the Deluxe Leaning Post with Cooler option to replace the drawers with a 35-quart YETI cooler.

...MEETS SERIOUS COMFORT

Don't let its offshore fishing chops fool you: The 280 Outrage is every bit as comfortable as it is capable. Invite friends and family along for a leisurely cruise or an action-packed jaunt—with its high gunnels, strategically placed grab rails and padded interiors, every passenger can feel safe and secure, while the boat's unsurpassed ride quality ensures an enjoyable experience at any speed. And with so many comfort-minded features, long days spent enjoying the water are always an appealing proposition.

1) **Bow Storage** | The open bow includes a generous lounge, with armrests, that lifts to reveal a cavernous, lockable storage compartment below. You'll find ample room to store fishing rods, buckets, fenders, PFDs or additional gear.

2) **Helm Seating** | Optional deluxe helm seating features an adjustable captain's chair and stationary companion seat with armrests. The optional flip-up bolsters contribute further to the overall ergonomic, user-friendly experience.

3) **Head/Console & Bow Area** | The console features a private compartment with a portable head and a fold-down step for easy accessibility and all-day comfort. Meanwhile, the spacious open bow's opposing seating makes for easy conversation. An optional sunshade adds protection from rays.
