THE BOSTON WHALER 380 REALM™

**BOSTON**  
**WHALE**

# WELCOME TO THE REALM

Meet the Boston Whaler 380 Realm™, a boat designed to empower new adventures and open up new worlds. With its spacious layout, comfortable modern cabin and impressive performance attributes, the 380 Realm arrives ready for action. Purposeful features make this an ideal entertaining platform, from the versatile open bow with three-across lounge seating; to the two full rows of convertible cockpit seating with a giant under-seat cooler; to the robust prep station and extendable SureShade® sunshade.

A full windshield featuring a brilliantly designed, aft-swinging access door is just one of the Realm's many feats of engineering, and one of many features that provides protection from the elements when you want it, and connection with nature at every turn. Experience Expedition-Grade quality and capability, and travel to the horizon and beyond with confidence, with the remarkable 380 Realm.

ADVENTURE AWAITS

# TO THE HORIZON AND BACK

Command with confidence: The 380 Realm marries cutting-edge design and sophisticated technology to elevate your mastery of the water. Operation is easy, thanks to the intuitive Mercury® SmartCraft VesselView display, which connects seamlessly to a variety of available Raymarine® navigation packages. Available Joystick Piloting ensures worry-free docking, while the optional Seakeeper® gyro-stabilization system virtually eliminates boat roll, putting an end to seasickness once and for all. And with the Realm's quad 300-hp Mercury Verado® engines and 445-gallon fuel capacity, paired with Boston Whaler's precision-engineered V-hull, you get powerful, efficient performance; tons of range; and a soft, safe, dry ride, all the way to the horizon and back.

1) **State-of-the-Art Helm** | Three widescreen color LCD displays, a top-of-the-line Fusion® Apollo stereo with JL Audio® speakers, Joystick Piloting, and a variety of available Raymarine® navigation packages make for confident command.

2) **Versatile Cockpit** | Once you reach that distant cove, go ahead, drop anchor and stay awhile. The Realm's two rows of cockpit seating convert to face forward or aft, with an optional table and flip-down footrests. Dining al fresco has never been this good.

3) **Prep Station** | The cockpit prep center features an electric grill with a solid-surface cover that pops up to form a countertop while grilling. A fridge below keeps perishables fresh, and a hot & cold freshwater sink makes for easy cleanup.

## TECHNOLOGY THAT WORKS FOR YOU

The 380 Realm also offers the newest version of Whaler Watch, a cutting-edge telematics system that works behind the scenes to keep things running smoothly and keep you in the loop, even when you're far from the boat.

- Whaler Watch incorporates Mercury's Theft Deterrent System (TDS), providing improved security by restricting engine performance in the absence of a designated key fob.
- Beyond security, Whaler Watch is the first in the industry to include remote monitoring capabilities for the air conditioning, lighting, freezer plates and gyro controls, as well as generator shut-down alerts.
- Whaler Watch also lets you control and monitor the entire digital network of vessel systems remotely through the included iPad.

## AMENITIES FOR DAY & NIGHT

The Realm prioritizes comfort, whether you're planning a dinner cruise with friends or a multi-day excursion with the whole family. Ample seating throughout the 380 invites every passenger to settle in and enjoy the ride. Take your seat in the generous open bow, or join the gang in the cockpit, where two rows of plush, convertible seating and additional fold-down aft seating welcome a crowd. No matter the weather, a full windshield with a nested wind-break door provides excellent protection from the elements. Other amenities include a well-designed cabin with a fully enclosed head and a convertible V-berth sleeping/dining area, and a huge under-seat storage compartment with optional refrigeration system. If fishing is on the agenda, choose from an array of options to elevate your game. No matter what the day holds, plan on unforgettable adventures.

1) **Smart Drink Storage** | A massive 260-qt. under-seat cooler compartment can be accessed two ways: with the seat lifted (handy for loading), and through an access door in the front (perfect for quickly grabbing a cold one). An optional refrigeration system is also available.

2) **Social Bow** | Easily accessible through a door in the windshield, the bow of the 380 Realm is a natural gathering area. Options including a bow sunshade, table and sunpad filler cushion increase versatility and encourage socializing.

3) **Optional Sunroof** | The 380 Realm's hardtop is available with an electric sunroof, a state-of-the-art option that allows extra light into the helm seating area.
